<https://ancan.org/event/9-11-compensation-the-fund-and-how-you-apply/>

Over 500,000 lives were placed at risk by the 9/11 disaster – not just those in the Towers, but residents around Point Zero and tens of thousands of first responders from across the Country.

Many of these people now reside across the USA and are facing health conditions that may be eligible for compensation – everything from cancers to sleep apnea and respiratory diseases.

The Victim Compensation Fund ('VCF') established by Congress expires in 2020. Awards can mount into the hundreds of thousand depending on the extent of your WTC certified illness.

[Michael Barasch](#) is a leading lawyer familiar with the VCF; and [Dr. Robert Bard](#) has extensive experience certifying WTC-related conditions. Together they will introduce you to your rights and your eligibility to make a claim before the fund is extinguished.

For questions to the Panel, please e-mail info@ancan.org
