

AnCan Partners with the Modern Medicaid Alliance

The AnCan Foundation Proudly Joins the Modern Medicaid Alliance

AnCan is proud to announce that we recently joined the Modern Medicaid Alliance, a partnership between Americans who value Medicaid and leading advocacy organizations. We look forward to working with the Alliance to educate policymakers and the public about the benefits and value of Medicaid.

As part of our partnership with the Modern Medicaid Alliance, we will be highlighting the diverse populations that depend on Medicaid for their health and financial security. Medicaid covers about 1 in 5 Americans, including millions of children, older adults, people with disabilities, and 2 million veterans. Medicaid provides an essential safety net for when Americans need it, providing high-quality, cost-effective care to more than 73 million people nationwide.

We join the Modern Medicaid Alliance at a critical time. While policymakers debate changes to Medicaid, the program is enjoying widespread support from Americans. In fact, [recent polling](#) found that 86% of Americans want a strong, sustainable Medicaid program – and fewer than 20% of Americans support cutting Medicaid funding.

AnCan is particularly interested in furthering Medicaid expansion in all States in order to promote health equity. Indeed, providing mental health services to veterans and to all those enduring chronic conditions is an urgent need.
